transition period. The multi-term method of contracting is also appropriate when special production of definite quantities of supplies for more than one fiscal period is necessary to best meet the District's needs but funds are available only for the initial fiscal period.

Determination Prior to Use. Before the utilization of a multi-term contract, it must be determined in writing that: estimated requirements cover the period of the contract and are reasonably firm and continuing and such a contract serves the best interests of the District by encouraging effective competition or otherwise promotes economies in procurement.

Specified Period. A contract for supplies, services, or information technology must not be entered into for a period of more than one (1) year unless following provisions apply:

- (b) determine a fair market value for new like items through informal quotes
- (c) determine the fair market value from similar items considering age and useful life

Using this information, the District shall determine the maximum price that it can pay for each item desired. At the auction or sale, the District shall not exceed the maximum price so determined.

OPERATING PROCEDURES

Ordering Procedures:

1. The requisition form is the official District document used to initiate a purchase transaction for supplies, equipment and miscellaneous services. Requisitions for purchases greater than \$2,500 must be submitted to the Procurement Office for approval. It must contain specific and complete details on the commodity or service desired. It must be correct as to quantity, item(s), specifications, and required delivery date. When any item requisitioned must be compatible with existing equipment, the reason must be clearly explained and the requisition with a specific brand or model (permitting no substitution) must be accompanied by a letter of justification. (Purchase Orders that are processed for payment without a requisition form will require a Procurement Officer's approval.)
2. School or Department personnel are responsible for entering the requisition into the Financial Software System.
3. Upon receipt of the requisition in the Procurement Office, the process of procurement is determined in accordance with the *Darlington County School District Procurement Code*. The requisition is reviewed by a Procurement Officer, approved and a purchase order is printed and returned to the requisitioning department or school. The school or department secretary/bookkeeper is responsible for obtaining the Principal's or Department Head's signature and

sending the purchase order to the supplier for all orders except computer and printer purchases (see Computer and Printer Purchases, page 6).

4. All invoices are forwarded to the Accounts Payable office after verification that the order has been received as ordered and payment is authorized by the Principal/Department Head.

This variance allows for items such as shipping charges and small incidental fees/credits that may not have been anticipated when the purchase order was originally created. It also allows Accounts Payable to make payments for invoices that are less than the original purchase order, i.e. discounts not taken, rebates, etc.

RECEIVING

- Each school or department is responsible for inspection of the goods received and verifying by signing the packing slip or other documentation before authorizing payment.
- Each school or department is responsible for contacting the supplier concerning the shipment in regards of complaints, damage, shortage reports, etc.

SALES AND USE TAX REQUIREMENTS

The District is not exempt from paying sales tax on most purchases. The following categories are exempt from paying sales/use tax (according to the South Carolina Department of Revenue):

District personnel making purchases should make sure vendors are aware that the District is not exempt from South Carolina Sales and Use Tax. These payments will be charged back to the accounts and departments that made the purchase.

District employees may not accept material gifts, excessive entertainment, or other favors from any outside concern that does, or is seeking to do business with the District, under circumstances from which it might be inferred that such action was intended to influence or possibly would influence the individual in the performance of his/her duties. This does not include the acceptance of items of nominal or minor

value that are clearly tokens and not related to any particular transaction or activity of the School District.

REIMBURSEMENTS

There are a few circumstances where the purchase of a good or service cannot feasibly be acquired through the normal purchasing process nor by using the Procurement Card. Guidelines have been established to reimburse employees for these unusual instances. Reimbursements for miscellaneous purchases made by an employee are allowed if prior approval is obtained from their principal/department head and the proper documentation is submitted.

Because all meals are reimbursed based on the standard per diem, the use of the District Procurement Card is not authorized to purchase meals in travel status.

5. MEETINGS, STUDY SESSIONS AND TRAINING SESSIONS

- Whenever possible, District business should be transacted during the normal working day. There may be instances where a meeting, study session or hearing continues through normal mealtime hours and serving a meal facilitates the continuance of the session within minimum disruption.

TRAVEL PROCEDURES

To be eligible for reimbursement, all travel for District employees must:

1. be properly authorized;
2. be actually incurred;
3. be necessary for fulfilling the responsibility of the school/department;
4. to be conducted in the most economical manner for the District.

The Darlington County School District requires all travel to be properly documented not only for accountability purposes, but also to protect the employees from having travel reimbursements being considered taxable. The IRS divides travel reimbursements into two categories (accountable and non-accountable). All travel payments made under non-accountable plan are considered income to the employee and are therefore subject to state and federal withholding. Travel paid under an accountable plan is considered to be a reimbursement and is not considered income as long as the employee can substantiate all expenses incurred by reporting and submitting proper documentation to the employer in a timely manner. The Darlington County School District has an accountable plan so the reimbursements are not taxable to the employee.

The traveler will use the most economical and practical mode of travel from the standpoint of time, cost, and standard travel route. Exceptions must be fully explained and approved by the Principal/Department Head.

IN-DISTRICT TRAVEL PROCEDURES

IN-DISTRICT TRAVEL is defined as travel within Darlington County or Florence County. (No overnight travel is reported in this category). Procurement Card privileges will be revoked if the Cardholder willfully violates policies or procedures or uses the card for personal purchases. Unauthorized purchases will result in personal liability, criminal, and/or civil prosecution.

Lost or Stolen Card

If a Procurement Card is lost or stolen, notify the Procurement Department immediately.

Reconciliation

Reconciliation is defined as a comparison of original receipts to the statement received from the financial institution. Specifically, look for the following:

Browser	Symbol Location	Normal (Insecure) Mode Symbol	Secure Mode Symbol
Netscape 1.2, 2.0, 3.0	Lower Left	Broken Key 	Complete Key
